Subject: Re: preliminary data for transmittal
Date: Wednesday, April 24, 2019 8:40:42 AM

Clarification needed please:

April 19 is listed as the only sampling date, however, several 'Sample Names' imply April 20. So far, I can't recall ever having seen Samples Names containing different numbers than those indicating location, sampling date, and whether or not it was a dup or QA sample. Just to be clear, the labelling as presented suggests for example, three samples from BB-01 were taken on April 19 (2 regular and 1 dup). This has never happened.

Please confirm (or not) that Samples Names containing "20190420" were in fact sampled on April 20th rather than April 19th.

Thanks!

Phil
